

Connecting to Careers in Agricultural Technology within Vertical Farming

Are you a jobseeker looking to enter a new sector? A mid-career worker looking to gain new skills? Or an employer looking for upskilling opportunities for your employees?

ACCES Employment, in partnership with Upskill Canada (powered by Palette Skills) and the Government of Canada, presents our new program, Connecting to Careers in Agricultural Technology within Vertical Farming. This 16-week program is designed to equip you with the skills and knowledge needed to thrive in this dynamic industry.

In Canada, the vertical farming market is projected to grow with a compound annual growth rate of over 23% from 2021 to 2027 and over 27% from 2023 to 2030.

Program Benefits

A wide range of technical skills acquired through an instructor-led online course, resulting in five Humber Polytechnic micro-credentials aligned with critical industry roles.

Experiential learning through collaborative group projects, preparing participants for the practical aspects of this sector.

Customized employment services to prep candidates to job search, including developing their personal brand, networking, interviewing, and social media profiling.

Pre-scheduled online workshops focused on workplace communication skills to help participants communicate effectively in professional settings.

Critical and Design Thinking workshops to position participants to adapt to evolving industry demands and generate solutions to workplace challenges.

Flexible one-to-one online coaching sessions provide personalized support, addressing individual needs and challenges.

Program Eligibility

- Eligible to work in Canada
- OSSD or equivalent
- Minimum three years of paid or volunteer work experience
- Keen interest in launching a career in the agricultural technology sector
- Aptitude in math and science
- Proficiency in Microsoft Office and web applications
- Strong verbal and written communication skills (equivalent to CLB 7)
- Self-motivated with strong goal setting, critical thinking, and problem-solving skills
